

제4회 중재적신경방사선과학연구회 대한뇌혈관내수술학회 합동학술대회

2003년 11월 15일

고려대학교 418 기념관

8:00 - 8:50 등록

8:50 - 9:00 인사말 (중재적신경방사선과학연구회 회장, 대한뇌혈관내수술학회 회장)

9:00 - 10:10 자유연제 I 좌장: 한문희, 백민우

9:00-9:10

심한 양측 근위부 내경동맥 협착에서 스텐트를 이용한 치험 2 예 보고 김의중

9:10-9:20

Embolic Infarction after Carotid Artery Stenting with and without Distal Balloon Protection: Comparison with Diffusion-weighted Imaging 변홍식

9:20-9:30

Extracranial Carotid Artery Stenting: Report of a 5-year series 변홍식

9:30-9:40

Proximal Extracranial Vertebral Artery Stenosis Angioplasty & Stenting 한정훈

9:40-9:50

Endovascular Stent-Assisted Angioplasty for Symptomatic Intracranial Artery Stenosis 이태홍

9:50-10:00

Acute Instent Thrombosis during Stenting of Intracranial Artery Stenosis: Rescue Therapeutic Method with Intraarterial Administration of Glycoprotein IIb/IIIa Inhibitor 이태홍

10:00-10:10

Mechanical recanalization using wire loop crushing technique in hyperacute stroke 이휘중

10:10-10:20

추가 토론

10:20 - 10:50 자유연제 II 좌장: 이남준

10:20-10:30

Preliminary Results of Experimental Intradiscal Bone Cement Leakage: Radiologic Findings and Pathological Changes in the Swine Intervertebral Discs and Adjacent Vertebral Bodies 차상훈

10:30-10:40

Spinal cord AVM in the conus level with concomittant AVF in the lower lumbar level: Report of 4 cases. 김동준

10:40-10:50

Endovascular management of large and deep seated arteriovenous malformations. 한성훈

10:50-11:00

Coffee break

11:00-12:00

좌장: 권 양

특강: Stent experience for small vessels-present and future 김영학

12:00-13:00

중식

13:00 - 14:10 자유연제 III

좌장: 변홍식, 신용삼

13:00 - 13:10

Transvenous Embolization of Intracranial Dural Arteriovenous Fistula 윤웅

13:10-13:20

Direct coil packing for dural arteriovenous fistula patients with isolated sinus 김동준

13:20-13:30

Endovascular occlusion of CCF with detachable balloons: usefulness of 3D angiography 권배주

13:30-13:40

Retrograde transvenous embolization of carotid-cavernous sinus fistulas via the superior ophthalmic vein 김재명

13:40-13:50

Ruptured anomalous origin of the cerebellar artery presented with carotid cavernous fistula. 김병문

13:50-14:00

Cavernous Sinus Dural Fistula Treated by Combined Transvenous and Transarterial Approaches : 1 Case Report. 서상일

14:00-14:10

Dura perforation as a complication during transvenous embolization of indirect CCF: Report of three cases 김동준

14:10-14:20

추가 토론

14:20-14:30

Coffee break

14:30- 17:20 자유연제 III

좌장 김동익, 김영준

14:30 - 14:40

뇌동맥류환자의 치료방법 결정에 있어서 환자 및 보호자, 의사의 역할. 안성기

14:40-14:50

Assessment of acute adverse events and attempted embolization at endovascular coiling for intracranial aneurysms 이창영

14:50-15:00

Complication cases during coil embolization of intracranial aneurysms 안성기

15:00-15:10

Endosaccular Coiling of the Cerebral Aneurysms: procedure-related complications in 102 cases 송하현

15:10-15:20

Rescue therapy with stent for parent artery coil herniation during wide neck aneurysm embolization : technical case report 정해웅

15:20-15:30

수술 후 뇌동맥류의 혈관내 치료 Endovascular Treatment in Post-Surgical Cerebral Aneurysms 강현승

15:30-15:40

Coiling First then Decompressive Craniectomy for Ruptured Aneurysm with Intracranial Hematoma causing Midline Shifting 김진경

15:40-15:50

The combined treatment of microsurgical clipping and endovascular embolization for residual intracranial aneurysms 배준석

15:50-16:00

추가토론

16:00-16:10

Double catheter technique 권오기

16:10-16:20

Endovascular Treatment of Unruptured Aneurysm with Self-Expanding Neuroform Stent and Matrix Coil; Initial Three Case 한정훈

16:20-16:30

최초 치료 후 6년과 7년이 경과한 후 재치료한 기저동맥 분지부 동맥류 2예 한문희

16:30-16:40

Oculomotor Nerve Palsy Caused by Unruptured Posterior Communicating Artery Aneurysm: Recovery Following Endovascular Treatment 한문희

16:40-16:50

후술환개 동맥의 원위부동맥류 파열에 대한 최근 치료경험 (후대뇌동맥 원위부 동맥류 1례 및 후하소뇌동맥 원위부 동맥류 2례) 고준석

16:50-17:00

The usefulness of CT angiography in treatment planning for cerebral aneurysm using 16 channel multidetector scanner 김병문

17:00-17:10

추가토론

17:10-17:20 폐회사 (중재적신경방사선과학연구회 회장, 대한뇌혈관수술학회 회장)
